

INTRODUCING

ZEALIST

We all want the PERFECT vacation

But this is how most of us feel when it comes to planning it

TOP 5 CHALLENGES WITH CURRENT RESOURCES:

1. News and media

Content **overload**

2. Google

Too mainstream and often **outdated**

3. Third party review sites

No trust in strangers' opinions

4. Social media

Friends' travel info **not aggregated**

5. Email / Notes

Difficult to dig up and share

Overall, the whole process just takes way too much time.
